EXAMINER'S AMENDMENT

1. Applicant's arguments with respect to the 112 and prior art rejections presented in the Appeal Brief filed on 3/26/07 have been considered and are persuasive. The rejections are withdrawn. After further search and consideration, it is determined that pending claims 1-9, 11-31, 33-50 and 52-88 are allowed.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Diana DiBerardino on July 19, 2007.

The application has been amended as follows:

In the claims;

Claim 42;

Line 1, delete "or in a propagated carrier signal, for protecting content,"

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention recites a method, system and apparatus for protecting content by preventing a user from perceiving the content. The prior art discloses a similar device; however the prior art does not disclose either singularly or in combination the features of presenting an indicator that differs from the content and indicates a presence of the content, preventing a user from perceiving the content while the indicator is being presented, and preventing a perception of the content at the indicator whenever the user attempts to capture the content. Hence, claims 1-9, 11-31, 33-50 and 52-88 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
